## Violento Linear Series

*The Allumio Violento Linear Series is a flexible option for those looking to customise their lighting.*

*This range allows for a number of lights to be attached together providing unlimited options in design to fulfil both lighting and design requirements. Or it can be simply used as individual lengths.*

*There is also the option to change the configuration as the lighting requirements change over time.*

*Its versatility is further enhanced as it can integrate into a Dali system.*

*The simplicity of the designs, with built in, surface mounted or ceiling hung options allow for limitless applications.*

## Violento Linear Series

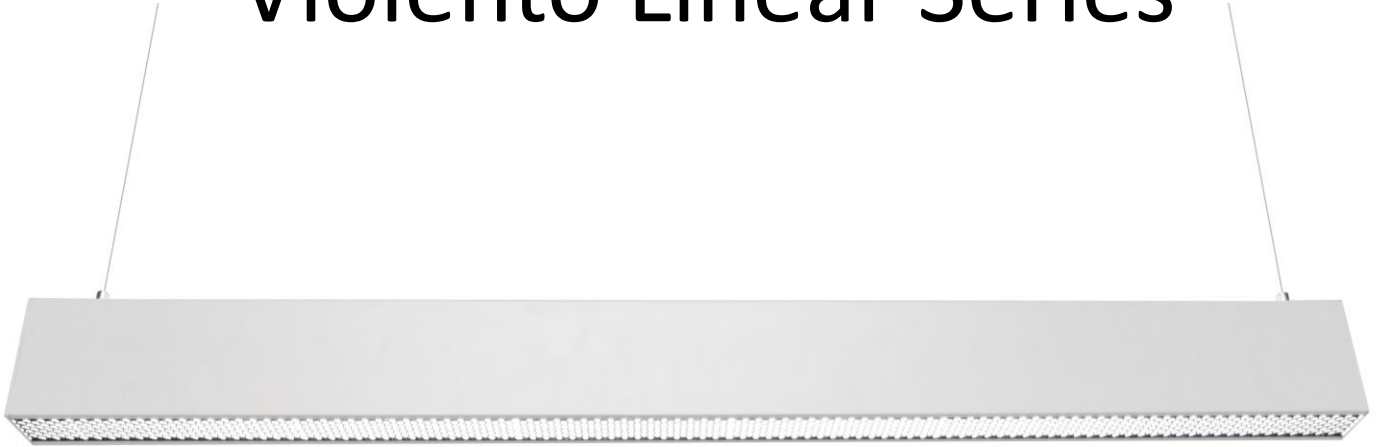

- The Violento Linear Range is fitted with a dual diffuser system which assists in the extremely low UGR (Anti-Glare) this fitting is capable of achieving.

- Its sleek design is further complimented by its honeycomb style diffuser and slim finish being only 40mm wide and 86mm high.

- Boke Flicker Free Drivers
- CRI>90
- UGR<16
- Epistar Chips
- 3 Step MacAdam Ellipse
- Size (mm) 86 x 40
- Working Temperature -20 ~ 50°C
- IP20
- Black, White and Silver frames available
- Available in 900, 1200, & 1500mm lengths
- 5 year warranty
