MODULAR STADIUM Series

The eLEDtric STADIUM MODULAR Series is a unique Stadium/Floodlight, allowing flexibility to suit any application. In addition to their striking form and seamless construction, the STADIUM MODULAR Series blends high performance optics, control, scalability and mounting options to cover more applications and enhance the outcome.

All housing componentry are constructed with die cast aluminium for superior durability, and IP66 rated optical compartment and assured optical integrity over time.

All components inside the housing are secured with stainless steel hardware and the series maintains a 3G vibrations rating.

MODULAR STADIUM Series

Product Features

- *Each module can be angled independently without tools*
- *Replace individual modules*
- *Surge protection 10kv and customized up to 20kv*
- *Available in 10, 30, 60, and 120° beam angles*
- *Die cast aluminium*
- *Dali options available*

Light Performance

- *High performance optics and uniform light distribution*
- *Luminaire output efficacy of 125LPW*
- *Standard CRI 70*
- *CCT 3,000k, 4,000k, 5,000k, 6,500k*

MODULAR STADIUM Series

Electrical

- *Input voltage AC100-277/AC240-480V*
- *Power Frequency 50/60Hz*
- *Power Factor 0.95*
- *Total Harmonic Distortion <15%*
- *Efficiency 92%*
- *Replaceable driver unit and control gear*

Multiple Installations Available

- *Trunion Mount Kit*

- *Knuckle Mount Slip Fitter Kit*

- *Stereo Base Installation*

- *Lumosa Tiny*

Rotation & Maintenance

- *Screw off the wing nut at the back of the module to rotate*
- *Rotational angle of each module is +/- 30°*

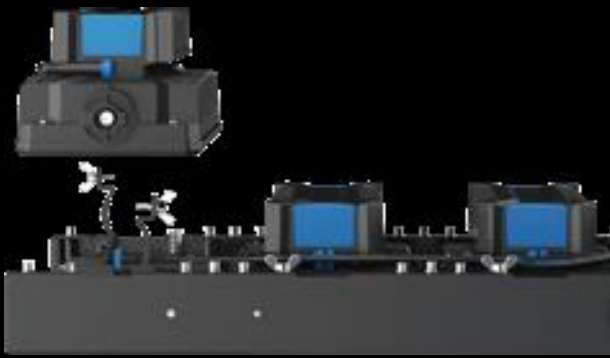

- *Slidable gear with dial allowing you to accurately set multiple fittings.*

eLEDtrig

MODULAR STADIUM Series

Rotation & Maintenance

- *Screw off the wing nuts and revolve it to 90°*

- *Remove the module to be replaced*

- *Put the new module to the clip and screw the wing nuts to 90° angle*

- *Insert the waterproof connector to the socket, and the fitting is ready*

eLEDtronic

MODULAR STADIUM Series

Ratings

- *IP66*
- *IK08*
- *Operating temp -20°C to 60°C*
- *RCM*
- *SAA*
- *C-tick*

Warranty

- *5 years*
